

"Grab and Go" fixed handles require no adjustment

Push-to-adjust paddle allows smooth lowering of the counterbalanced user support

Single handle low pulleys with PVC dipped storage brackets

Optional Relentless Rope or Ripper mount at the rear of station

Adjustable padded support can act as a hold down for lat pulls or a back support for chest presses

Pulleys contain bearings for smooth operation and tracking

Fully shrouded, elevated weight stack dampens sound during movement and enhances accessibility for seated users
