GENERAL NOTES

CAUTION: More than one person is required to assemble this unit. Do not attempt to assemble by yourself.

Unpacking the Equipment

This product may be packaged and shipped in multiple boxes. Parts from all of the boxes are required for various steps during the assembly process.

Carefully open each box and arrange all the parts near the area where assembly is to take place.

CAUTION: Use extreme care when cutting plastic tie wraps and package banding. A wire cutter works best for protecting yourself and the parts.

CAUTION: Some of the internal boxes may contain upholstery. Do not use a utility knife to open any boxes or the pads may be damaged.

The hardware is packed in bags. Carefully open each bag and sort them per parts list on the next page.

Before starting assembly, identify each part and hardware item as listed in the parts list on the next page. If any items are missing, contact Torque Fitness Customer service at: 763-754-7533 or service@torquefitness.com

Note: Some items listed in the parts list may already be pre-installed on the product.

Tools Required

- Phillips screw driver
- 7/16" Socket
- 1/2" Socket
- Ratchet for sockets and bits
- T40 Torx bit
- 3/8" Allen wrench or bit
- Wire snips (to cut plastic tie wraps)

Optional Equipment

Optional equipment may be available for this product.

Follow the instructions included with the optional equipment to assemble it to the base product.

Assembly Tips

- In a continual effort to improve our products, specifications are subject to change.
- A 8" scale is provided at the bottom of this page. To correctly measure the bolts, measure from underneath the bolt head to the end of the bolt as illustrated below.
- Read all notes on each page before beginning that step.
- Some of the items shown in the assembly steps may already be pre-assembled.

Assembly Tips Continued

- **Note:** Some items have been hidden for assembly clarity.
- **Note:** Some pre-assembled parts may need to be temporarily removed in order to complete the step. Follow the instructions or damage to the product could occur.
- Some parts may have extra holes that will not be used. Use only the holes depicted in the instructions.
- Certain parts make reference to the right and left side of the machine. In order to determine the left and right side, stand in front of the machine.
- Provide ample space around the product for ease of assembly.
- **DO NOT** fully tighten any connections until instructed to do so. This will help insure that the alignment of all of the parts will be correct.
- Insert all bolts in the direction indicated in the instructions. Failure to do so may result in clearance issues and will degrade the aesthetics of the product.
- Carefully follow instructions for all pivot points. In general, primary rotating parts have connections that should be securely tightened, while secondary connections need to be loosen 1/4 turn.
